

FAMILY READINESS GROUP and INFORMATION

As of 03 SEP 2003

Centurion Families,

The purpose of this web page is to provide information about the activities of TF CENTURION while we are deployed in support of Operation IRAQI FREEDOM. We plan to post information on a regular basis. My goal is to provide, at a minimum, bi-weekly updates.

The Centurion soldiers have done an outstanding, professional job over the last four weeks. They prepared themselves and their equipment for deployment. I am certain that they are fully prepared to deploy. We have worked very hard since February in support of a number of missions to include: Ship security, individual augmentees, Immediate Reaction Company, and NTC. All of this training has increased the skill and confidence of the soldiers. I am confident that they will perform this mission as true professionals.

Families thank you for your continued love and support. You are part of the team that enables these men to perform their duties professionally.

The Rear Detachment is also fully operational. A Rear Detachment representative is available 24 hours a day at the Soldier and Family Readiness Center. The 1-34 Rear Detachment phone # is 239-1703/1709.

Centurions—Duty First!

LTC Jeff Swisher
